One vessel. Optimized transport.

■ Cargo from Charterer n.1

■ Cargo from Charterer n.2

Cargo storage in Med

Our company can provide spaces for storage of **every** kind of **chemical** product in Med, from **most hazardous grades** to **petroleum** products, **vegoil**, **biodiesel** and **biofeedstock**.

To manage the logistic knowing also the situation at areas of **destination** allow us to **advise client** also on best timings and find **efficient solutions** also when it is required along the way

Connection with bios and waste product producers

Our deep dedication to the bio feedstock and waste products world, allow us to serve clients in a vertical way. The possibility to be in contact with some producers of these kind of products give us also the possibility to help clients in case of particular needs linked to production or availability of product in loading areas

Lawyering support

The problem solving is core in our business, but to be sure **that** everything is done properly sometimes a lawyer can help to reach the goal. This is the reason why, in case of need, we put at disposal of our clients lawyers that well know the specific business we do, in order to support them along every step
